

**TRANSFORMING FRAGMENTED
SECURITY INTO AN INTEGRATED,
CENTRALIZED INTELLIGENCE**

A PRODUCT BY **LENSEC**

SMOC – SECURITY MANAGEMENT ORCHESTRATION CENTER

SMOC is a Physical Security Information Management (PSIM) platform designed to orchestrate all security systems into one intelligent dashboard. With SMOC, organizations eliminate silos, streamline operations, and shift from reactive security to a fully proactive strategy.

WHY SMOC

A SINGLE SOURCE OF TRUTH FOR ENTERPRISE SECURITY

SMOC eliminates the complexity created by siloed systems. With unified control, security teams gain the visibility, consistency, and speed needed to protect people and assets.

KEY BENEFITS

- **Unified Security Control**

Bring access control, video, sensors, analytics, alarms, and building systems into one browser-based interface.

- **Real-Time Intelligence**

Act quickly with a live overview of all sites, automated alerts, and guided workflows that reduce response time.

- **Simplified Operations**

Eliminate the manual switching between systems with a single, integrated dashboard designed for faster decisions.

- **Enterprise Scalability**

Deploy SMOC across multi-site environments, distributed locations, or high-security critical infrastructure.

- **Automation That Works for You**

Trigger automated actions across systems—from camera presets to access lockdowns—to handle incidents faster and smarter.

- **Hardware-Agnostic Flexibility**

Integrates seamlessly with leading security brands and third-party systems without vendor lock-in.

FROM REACTIVE TO PROACTIVE SECURITY.

BUILT FOR MODERN ENTERPRISE SECURITY

Browser-based

Fast deployments

Strong cybersecurity
compliance

Cloud-ready

Customizable
workflows

Built for 24/7
operations

INTEGRATIONS & ECOSYSTEM

SMOC integrates with industry-leading technologies, including:

- Access Control Systems
- Fire Alarm Panels (auto-display video, highlight zones)
- Intrusion & Motion Detection
- Gates, Barriers, Blockers & Bollards
- Building Management Systems (HVAC, lighting, elevators)
- IoT Devices & Sensors (temperature, motion, gunshot, etc.)
- Third-Party Security Devices (intercoms, panels, analytics)

PRODUCT FEATURE MATRIX

Feature Set	Professional	Enterprise Edition
Number of Users/Client Workstations	Unlimited	Unlimited
Number of Cameras	Unlimited	Unlimited
Number of Servers	Unlimited	Unlimited
Number of Integration Modules	Unlimited	Unlimited
Browser-based with Administration Module	✓	✓
Multi-Language Support	✓	✓
Global Search	✓	✓
Multi-View/Multi-Monitor	✓	✓
Mobile Device (Android, iOS)	✓	✓
Maps Integration with Live Viewing	✓	✓
Simultaneous Live/Archive Viewing	✓	✓
Configuration/Health/Analytics Report	✓	✓
Open API	✓	✓
Video Tagging	✓	✓
Virtual Machine Support	✓	✓
Share View	✓	✓
Neighboring Camera Associations	✓	✓
Time-lapse Extractions	✓	✓
Multisite/ Interlink	Central & Remote site	Central & Remote site
Archive Locking	✓	✓
Archive Timeline Forensics	✓	✓
Video Importing	✓	✓
Advanced Workflow Logic	✓	✓
Embedded Camera Live Events	✓	✓
Archive Encryption	✓	✓
Dashboard - Basic	✓	✓
Dashboard - Full	✓	✓

PRODUCT FEATURE MATRIX

Feature Set	Professional	Enterprise Edition
Linked Cameras	✓	✓
Failover	-	✓
Active Directory	-	✓
Live Maps/ GIS	-	✓
Forensic Search	-	Add-on
Fleet Module	Add-on	Add-on
Access Control Integration	Add-on	Add-on
Video Analytics	Add-on	Add-on
Fire Alarm Integration	Add-on	Add-on
Intrusion Detection/ Prevention	Add-on	Add-on
Gates/ Barriers/ Blockers/ Bollards	Add-on	Add-on
Building Management Systems (BMS)	Add-on	Add-on
IoT	Add-on	Add-on
Third party Security devices	Add-on	Add-on

KEY FEATURES

- **Unified Interface:** All systems. One dashboard. Zero complexity.
- **Seamless Third-Party Integrations:** Connect with access control, VMS, alarms, analytics, sensors, IoT, building management, and more.
- **Real-Time Monitoring & Alerts:** View live system health, events, and alarms with instant actionable insights.
- **SOP & Workflow Automation:** Automated, policy-driven workflows ensure faster, consistent incident handling.
- **Advanced Reporting:** Generate centralized reports across all sites to support audits, investigations, and compliance.
- **Scalable Architecture:** Built to grow from single sites to global enterprise deployments.

ARCHITECTURE OVERVIEW

Modular, API-driven, and integration-ready

SMOC is designed on a secure, scalable architecture that supports enterprise deployments and high-volume event processing.

DEPLOYMENT OPTIONS

- On-premises
- Hybrid architecture
- Private cloud installation
- Multi-site federation
- Partner-led deployment

LICENSING MODEL

- Tiered site-based licensing
- Add-on integrations per module
- Annual support & update subscription
- Partner margin-friendly pricing

SUPPORT & SERVICES

- 24/7 global support
- Comprehensive documentation
- Partner training and certification
- Implementation assistance
- Custom workflow design services

READY TO UNIFY YOUR SECURITY ECOSYSTEM?

Discover how SMOC transforms complex security environments into a proactive, automated, and intelligent command platform.
