

VIDEO SURVEILLANCE INTEGRATED WITH BADGEPASS ACCESS CONTROL SOFTWARE

BadgePass Access Manager Software and Perspective VMS[®] are integrated together, jointly offering access control and video surveillance management. This means users have reliable event monitoring and reporting of security incidents while capturing video evidence and access control data.

Perspective VMS[®] is certified with several hardware products and software applications. PVMS functions well with numerous physical security solutions. Here are a few with a proven track record.

- Active Directory
- RFID Asset Tracking
- Perimeter Alert Systems
- Alarm Monitoring
- Video Analytics
- Access Control Systems
- Data Storage
- IP-Device Alerting

SOFTWARE INTEGRATION

Software Integration extends the capabilities of Perspective VMS[®] by partnering with software companies and technology providers. Functional integrations unify the security interface into one platform that is easy to manage.

HARDWARE CERTIFICATION

LENSEC takes measures to acquire Perspective VMS[®] hardware certification with relevant manufacturers. Perspective VMS[®] has been certified by numerous physical security hardware companies on their hardware.

WORKFLOWS

Workflows enable users to integrate physical and logical inputs from physical security hardware into on-screen display actions or other notification alerts through associated objects, triggers, and actions.

SYSTEM HEALTH

System Health Notifications offer service alerts regarding servers, storage, IP-devices, and network services. Users may access tools and reports in order to help identify system health and faults.

ACCESS MANAGER SOFTWARE

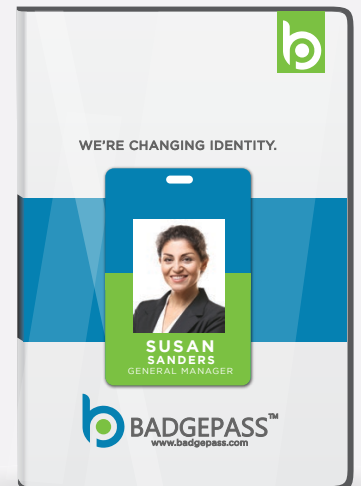

Secure Credential Management

BadgePass Access Manager is unlike any other access control product on the market. It is part of a complete credential management platform, giving you the ability to seamlessly issue and activate secure credentials for door access and all other ID-related applications in your facility.

Key Features:

- Eliminate risk of credential overflow
- Non-proprietary hardware
- Automatic card activation upon issuance
- Database integration tools (DataSync/AD Plugin)
- Support for an unlimited number of doors and readers
- Support for an unlimited number of cardholders
- Customizable door groups, holidays & schedules
- Lockdown and toggle capabilities
- Support for traditional hardwired, PoE and wireless lock door configurations
- 3rd party video integration options
- Ability to grant temporary access to visitors and guests
- Support for multiple card technologies including MIFARE, proximity, smart, magstripe and more
- Real-time door monitoring software
- Web-based reporting services
- Software Integrated with LENSEC's Perspective VMS® Video Management Software
