

VIDEO MANAGEMENT SECURITY CERTIFIED WITH RAZBERI TECHNOLOGIES HARDWARE FOR SURVEILLANCE

When Razberi Technologies hardware and Perspective VMS[®] software are paired together, they jointly offer a reliable, secure, and network-friendly video surveillance platform that records the highest quality video while reducing capital, bandwidth, and space costs.

Perspective VMS[®] is certified with several hardware products and software applications. PVMS functions well with numerous physical security solutions. Here are a few with a proven track record.

- Active Directory
- RFID Asset Tracking
- Perimeter Alert Systems
- Alarm Monitoring
- Video Analytics
- Access Control Systems
- Data Storage
- IP-Device Alerting

SOFTWARE INTEGRATION

Software Integration extends the capabilities of Perspective VMS[®] by partnering with software companies and technology providers. Functional integrations unify the security interface into one platform that is easy to manage.

HARDWARE CERTIFICATION

LENSEC takes measures to acquire Perspective VMS[®] hardware certification with relevant manufacturers. Perspective VMS[®] has been certified by numerous physical security hardware companies on their hardware.

WORKFLOWS

Workflows enable users to integrate physical and logical inputs from physical security hardware into on-screen display actions or other notification alerts through associated objects, triggers, and actions.

SYSTEM HEALTH

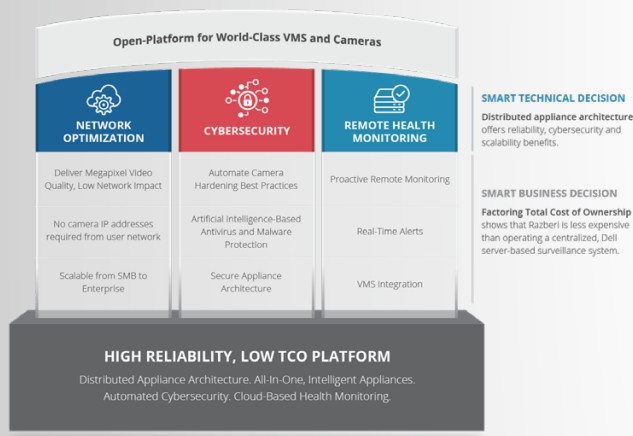

System Health Notifications offer service alerts regarding servers, storage, IP-devices, and network services. Users may access tools and reports in order to help identify system health and faults.

Razberi

Builds the next generation of intelligent surveillance appliances.

Razberi develops and manufactures intelligent network security appliances. Its flagship Intelligent Surveillance Appliance, the razberi™ ServerSwitch™ is a superior alternative to general-purpose servers, switches, storage, and power for IP video surveillance. By deploying Razberi in a distributed appliance architecture, network utilization is reduced by up to 95% while increasing megapixel video quality and dramatically reducing capital, bandwidth and space costs. Razberi works with LENSEC's Perspective VMS® and leading camera providers delivering unmatched certification and support. Razberi solutions are available through a worldwide network of value added partners.

RAZBERI PROVIDES PROVEN RESULTS

- Up to 95% Reduction in Video Surveillance Impact on IP Networks
- Uncompromised Video Surveillance Quality
- Multiple Enterprise-Class Razberi Appliances Cost One-Third Less Than General Purpose Servers and Storage
- A Scalable, Open, Space-Saving Option, Reducing the Footprint in the Data Center
- Excellent Protection Against Cyber Attacks
