

VIDEO SURVEILLANCE INTEGRATED WITH BADGEPASS ACCESS CONTROL SOFTWARE

TotalCard Campus Card Software by BadgePass and Perspective VMS[®] by LENSEC are integrated together, jointly offering a student card solution along with video surveillance management. Now campus administrators can keep track of student activity across an enterprise location, including transactions and attendance along with recorded video while enhancing the security platform.

Perspective VMS[®] is certified with several hardware products and software applications. PVMS functions well with numerous physical security solutions. Here are a few with a proven track record.

- Active Directory
- RFID Asset Tracking
- Perimeter Alert Systems
- Alarm Monitoring
- Video Analytics
- Access Control Systems
- Data Storage
- IP-Device Alerting

SOFTWARE INTEGRATION

Software Integration extends the capabilities of Perspective VMS[®] by partnering with software companies and technology providers. Functional integrations unify the security interface into one platform that is easy to manage.

HARDWARE CERTIFICATION

LENSEC takes measures to acquire Perspective VMS[®] hardware certification with relevant manufacturers. Perspective VMS[®] has been certified by numerous physical security hardware companies on their hardware.

WORKFLOWS

Workflows enable users to integrate physical and logical inputs from physical security hardware into on-screen display actions or other notification alerts through associated objects, triggers, and actions.

SYSTEM HEALTH

System Health Notifications offer service alerts regarding servers, storage, IP-devices, and network services. Users may access tools and reports in order to help identify system health and faults.

TOTALCARD CAMPUS CARD SYSTEMS SOFTWARE

TotalCard is a Complete Campus Solution

TotalCard is an industry leading campus card system, produced and provided by BadgePass. Colleges and universities of all sizes have benefitted from implementing TotalCard as their campus card system, resulting in increased security and efficiency, as well as significant cost savings.

ID Badging

Identity Manager allows for simplified card production used for campus payment, tracking, and validation.

Access Control

TotalCard includes access control software, providing a user-friendly badge entry system.

Dining & Meal Plan Management

Managing student transactions is accomplished with a simple and intuitive point-of-sale system for flexible meal plan management.

Visitor Check-In

Registration and tracking of guests with TotalCard's visitor management application allows association of visitors to student records, and notification of guests staying beyond curfew.

Time & Attendance

Tracking student worker time cards is provided with TotalCard time card feature. Student workers can use their student ID to clock in & out from campus jobs.

Video Surveillance

By adding Perspective VMS® from LENSEC, TotalCard becomes a unified security platform, tying recorded video to transactions or access control events. This level of information provides precise evidence when needed.

TotalCard Also Includes:

Student Attendance, Bookstore, Vending, Laundry, Copy Control, Key Management, and more.
